

EV, Battery Capacity, and Battery Metals Tracker

ONLINE TRACKER AND VISUAL ANALYTICS PLATFORM

Updated Monthly

Historic Monthly Data Back to 2004

Interactive Maps, Charts, and Reporting Tools

Suite of 5 Interactive Dashboards:

1. EV Profiler

- Over 435 models covered (BEV, PHEV, HEV)
- Battery attributes and metals usage
- Monthly market share by country

2. EV Registrations by Country and Region

- Tracking 78 nations in four regions
- BEV, PHEV, and HEV models
- Every market at your finger tips

3. EV Registrations by Make and Model

- Over 435 models from 98 automakers
- Filter and drill-down by model, make, country, region, or EV type

4. EV Registrations by Battery Chemistry, Capacity and Supplier

- Battery capacity (kWh) registered by region, country, make, model, battery cell supplier, EV type, cathode, and anode
- Granular breakdown of cathode types in use (i.e. NMC 111, 532, 622, 811, etc.)

5. Battery Metals Usage by Make, Model, Country, Region, and Battery/Cell Supplier

- Battery metals and materials used by region, country, make, model, batt/cell supplier, EV type, cathode, and anode
- Tracking demand growth month-by-month

This online tracker and visual analytics platform tracks monthly EV registrations globally by make, model, nation, and battery cell supplier, and translates monthly registrations into demand for EV batteries and consumption of battery metals and materials, such as lithium, cobalt, nickel, aluminum, manganese, copper, and graphite.

The data we track is presented through a suite of interactive dashboards that enable the user to quickly visualize trends and drill-down on individual makes, models, regions, countries, battery cell suppliers, battery chemistries, metal types, and much more.

Spend less time collecting, analyzing, and fact-checking data, and more time making informed decisions.

Essential tool for:

- Automakers
- Battery Manufacturers
- Cell Suppliers
- Cathode and Anode Producers
- Battery Metals Mining Companies
- Informed Investors and Financiers
- Government Agencies
- Industry Stakeholders
