

# Rare Earth Magnet Market Outlook to 2030

Adamas Intelligence

Q3 2020

## Disclaimer and User License Agreement

**This report and its contents are copyright and confidential.** This report is not for public distribution and may not be reproduced or redistributed in part or whole without prior written permission from Adamas Intelligence.

This report is for private internal use of the person or company that licenses it and may not be shared, co-licensed, or distributed among consortiums or multi-company organizations. Apart from any use as permitted by law, all rights pertaining to this publication are reserved by Adamas Intelligence and associated copyrights are strictly and legally enforced. This report is watermarked with the licensee's name, company, and e-mail address to help Adamas Intelligence protect and enforce its copyrights.

This report is provided for information purposes only. It is not a complete survey of every material fact respecting any company, project, resource, reserve, mine, market, end-use, application, product or nation. This report has been prepared in good faith on the basis of information available up to 30 days prior to the date of publication without independent verification, unless specified otherwise.

The information provided in this report is from primary research, secondary research, and other sources, which we believe to be reliable. Efforts have been made to try and ensure the accuracy of the data and information contained in this report, however, Adamas Intelligence does not guarantee or warrant the accuracy, reliability, completeness, or currency of the information in this report.

Readers are responsible for assessing the relevance and accuracy of the contents of this publication. Adamas Intelligence will not be liable for any loss, damage, cost, or expense incurred or arising by any reason of any person or business using or relying on information, statistics, forecasts, estimates, or opinions stated in this publication. Companies, mines, or other facilities may be identified by proprietary or trade names herein to help readers identify particular companies, mines, or facilities but this is not, and is not intended to be, an endorsement or recommendation of the mine, facility, or company referred to, unless explicitly stated.

This report contains "forward-looking statements" – that is, statements related to future events. In this report, forward-looking statements address our expectations of future rare earth production, supply, demand, consumption, and prices within parameters defined by stated scenarios, and often contain words such as "forecast", "project", "expect," "anticipate," "intend," "plan," "believe," "seek," "see," or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain.

A number of future uncertainties exist that could cause actual results to be materially different than those expressed in our forward-looking statements. Readers are responsible for assessing the relevance and accuracy of these forward-looking statements. Adamas Intelligence will not be liable for any loss, damage, cost, or expense incurred or arising by any reason of any person or business using or relying on forward-looking statements in this report.

### **Important Notes:**

All prices and values referred to herein are in U.S. dollars unless specified otherwise.

Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

## Table of Contents

<b>Terminology and Abbreviations.....</b>	<b>9</b>
<b>Executive Summary.....</b>	<b>10</b>
Market for Magnet Rare Earth Oxides to Increase Five-Fold by 2030:.....	10
Annual NdFeB Shortages of 48,000 Tonnes Expected by 2030: .....	10
Annual NdPr Oxide Shortages of 16,000 Tonnes Expected by 2030:.....	10
Annual Dy Oxide Shortages of 1,850 Tonnes Expected by 2030: .....	10
<b>Chapter 1: Introduction.....</b>	<b>11</b>
<b>Rare Earth Elements: Small Market, Big Necessity .....</b>	<b>11</b>
<b>Classification and Abbreviations.....</b>	<b>11</b>
<b>Rarely Enriched in Nature .....</b>	<b>12</b>
<b>Eight End-Use Categories .....</b>	<b>13</b>
<b>Global Rare Earth Consumption in 2019 .....</b>	<b>14</b>
<b>Rare Earth Balance Problem .....</b>	<b>15</b>
<b>Implications of the Balance Problem .....</b>	<b>16</b>
<b>NdFeB Permanent Magnets: Enablers of Modern Technology .....</b>	<b>17</b>
What is NdFeB?.....	17
What is it made of?.....	17
Why is it special?.....	17
<b>NdFeB Alloy is Available in Over 50 Different Grades .....</b>	<b>18</b>
<b>NdFeB Powder is Available in Over 30 Different Grades .....</b>	<b>19</b>
<b>Chapter 2: Value Chain Overview .....</b>	<b>20</b>
<b>Mine to Magnet Overview.....</b>	<b>20</b>
Rare Earth Mining, Separation and Refining.....	20
Rare Earth Metals and Alloys .....	21
NdFeB Alloys and Powders .....	21
NdFeB Magnets.....	21
<b>Chapter 3: Historical Global Production .....</b>	<b>23</b>
<b>Global Mine Production of Magnet Rare Earths by Oxide .....</b>	<b>23</b>
<b>Global Mine Production of Magnet Rare Earths by Country .....</b>	<b>24</b>
Neodymium Oxide .....	25
Praseodymium Oxide .....	26
Dysprosium Oxide .....	27
Terbium Oxide .....	28
<b>Global Refined Production of Magnet Rare Earth Oxides by Country .....</b>	<b>29</b>

Neodymium Oxide .....	30
Praseodymium Oxide .....	31
Dysprosium Oxide .....	32
Terbium Oxide .....	33
<b>Global Secondary Production of Magnet Rare Earth Oxides .....</b>	<b>34</b>
<b>Global Secondary Production of Magnet Rare Earth Oxides by Country .....</b>	<b>35</b>
<b>Global NdFeB Alloy Production by Country.....</b>	<b>36</b>
<b>Global NdFeB Alloy Production Capacity by Country .....</b>	<b>37</b>
<b>Global NdFeB Powder Production by Country .....</b>	<b>38</b>
<b>Global NdFeB Powder Production Capacity by Country .....</b>	<b>39</b>
<b>Global NdFeB Alloy and Powder Producer Landscape.....</b>	<b>40</b>
<b>Chapter 4: Historical Global Consumption.....</b>	<b>42</b>
<b>Consumption of Magnet Rare Earths .....</b>	<b>42</b>
<b>Consumption of NdFeB Alloys and Powders .....</b>	<b>43</b>
<b>Consumption of NdFeB Magnets .....</b>	<b>43</b>
<b>Consumption of NdFeB Magnets by Region .....</b>	<b>44</b>
<b>Consumption of NdFeB Magnets by End-Use Category.....</b>	<b>45</b>
Passenger EV Traction Motors.....	47
Commercial EV Traction Motors.....	48
Other E-Mobility .....	49
Automotive Micromotors and Sensors.....	50
Wind Power Generators .....	51
Industrial Motors and Pumps .....	52
Other Industrial Applications.....	53
Cordless Powertools .....	54
Consumer Electronics .....	55
Consumer Appliances .....	56
Automobile Speakers.....	57
Others .....	58
<b>Chapter 5: Historical Production – Consumption Balance .....</b>	<b>59</b>
<b>Neodymium and Praseodymium Oxides .....</b>	<b>59</b>
<b>Dysprosium and Terbium Oxides .....</b>	<b>60</b>
<b>Magnet Alloys and Powders .....</b>	<b>61</b>
<b>Chapter 6: Historical Prices.....</b>	<b>62</b>
<b>Prices of Magnet Rare Earths.....</b>	<b>62</b>
Neodymium, Praseodymium and Didymium Oxide.....	62
Dysprosium Oxide .....	64

Terbium Oxide .....	65
<b>Prices of NdFeB Alloys .....</b>	<b>66</b>
N-Series Alloys .....	66
M-Series Alloys.....	67
H-Series Alloys .....	68
SH, UH and EH-Series Alloys .....	69
<b>Chapter 7: Forecasted Demand to 2030 .....</b>	<b>70</b>
<b>Forecasted Demand for Sintered and Bonded NdFeB Magnets.....</b>	<b>70</b>
<b>Forecasted Demand for NdFeB Alloys and Powders .....</b>	<b>72</b>
<b>Forecasted Demand for Magnet Rare Earths by Oxide.....</b>	<b>73</b>
<b>Forecasted Demand for Magnet Rare Earths by Region .....</b>	<b>74</b>
<b>Forecasted Demand for Magnet Rare Earths by End-Use Category .....</b>	<b>75</b>
Demand for Didymium Oxide by End-Use Category .....	76
Demand for Dysprosium Oxide by End-Use Category .....	78
Demand for Terbium Oxide by End-Use Category .....	80
<b>Forecasted Demand for Passenger xEV Traction Motors to 2030 .....</b>	<b>82</b>
Passenger xEV Traction Motors .....	83
Passenger BEV Traction Motors.....	84
Passenger PHEV Traction Motors .....	85
Passenger HEV Traction Motors .....	86
<b>Forecasted Demand for Commercial EV Traction Motors to 2030.....</b>	<b>87</b>
Commercial EV Traction Motors.....	88
Light, Medium and Heavy Commercial EV Traction Motors .....	89
Bus and Special Purpose EV Traction Motors .....	90
<b>Forecasted Demand for Other E-Mobility Traction Motors to 2030 .....</b>	<b>91</b>
Other E-Mobility Traction Motors .....	92
Electric Bicycle and Moped Motors .....	93
Electric Motorcycle and Quadricycle Motors.....	94
Electric Micro-Scooter Motors.....	95
Low-Speed EV Traction Motors .....	96
<b>Forecasted Demand for Automotive Micromotors and Sensors to 2030.....</b>	<b>97</b>
Automotive Micromotors and Sensors.....	98
Power Steering Motors .....	99
Power Seat Motors .....	99
Power Window Motors.....	100
Power Lock Motors .....	100
Power Mirror Motors.....	101
Power Sunroof Motors .....	101

Power Liftgate Motors .....	102
Power Tilt Steering.....	102
Fuel Pump Motors .....	103
Cooling Fan Motors.....	103
Crank Angle Sensors.....	104
Ignition Coil Motors .....	104
Water Pump Motors.....	105
Exhaust Gas Recirculation Valves .....	105
Electric Compressors.....	106
Electric Brakes.....	106
Optical Disc Drives .....	107
Other.....	107
<b>Forecasted Demand for Wind Power Generators to 2030.....</b>	<b>108</b>
Wind Power Generators .....	109
Permanent Magnet Direct Drive Wind Power Generators .....	110
Permanent Magnet Hybrid Direct Drive Wind Power Generators .....	111
<b>Forecasted Demand for Industrial Motors, Pumps and Compressors to 2030.....</b>	<b>112</b>
Industrial Motors, Pumps and Compressors.....	113
Fans and Blowers .....	114
Centrifugal Pumps.....	114
Industrial Compressors .....	115
Positive Displacement Pumps.....	115
Other Motors, Pumps and Compressors .....	116
<b>Forecasted Demand for Other Industrial Applications .....</b>	<b>117</b>
Other Industrial Applications .....	118
Industrial Robots and Welders.....	119
Elevators and Escalators .....	120
Magnetic Lifters .....	121
Magnetic Separators.....	121
Magnetic Filters .....	122
Magnetic Couplings .....	122
Other Industrial Applications .....	123
<b>Forecasted Demand for Cordless Powertools .....</b>	<b>124</b>
Cordless Powertools .....	125
Cordless Drills.....	126
Cordless Saws and Sanders .....	127
Cordless Mowers .....	127
Cordless Trimmers .....	128

Cordless Vacuums and Blowers .....	128
<b>Forecasted Demand for Consumer Electronics .....</b>	<b>129</b>
Consumer Electronics .....	130
Mobile Phone Vibration Motors .....	131
Mobile Phone Voice Coil Motors .....	131
Consumer HDDs .....	132
Enterprise HDDs .....	132
Laptop Speakers .....	133
Tablet Speakers .....	133
Television Speakers .....	134
Mobile Phone Speakers .....	134
Home Theater Speakers .....	135
Smart Speakers and Displays .....	135
Other Wireless Speakers .....	136
Headphones .....	136
Small Printers and Copiers .....	137
Large Format Printers .....	137
<b>Forecasted Demand for Consumer Appliances .....</b>	<b>138</b>
Consumer Appliances .....	139
Ovens and Microwaves .....	140
Dishwashers .....	140
Room Air Conditioners .....	141
Packaged Air Conditioners .....	141
Residential Fridges and Freezers .....	142
Commercial Fridges and Freezers .....	142
Washers and Dryers .....	143
Residential Magnetocaloric Chillers .....	143
Commercial Magnetocaloric Chillers .....	144
<b>Forecasted Demand for Automobile Speakers .....</b>	<b>145</b>
Automobile Speakers .....	146
<b>Forecasted Demand for Other End-Uses and Applications .....</b>	<b>147</b>
Medical .....	148
Defense .....	148
Aerospace .....	149
All Other .....	149
<b>Chapter 8: Forecasted Global Production .....</b>	<b>150</b>
Forecasted Global Mine Production of Magnet Rare Earths by Oxide .....	150
Forecasted Global Mine Production of Magnet Rare Earths by Region .....	151

Neodymium Oxide .....	152
Praseodymium Oxide .....	153
Dysprosium Oxide .....	154
Terbium Oxide .....	155
<b>Forecasted Global Refined Production of Magnet Rare Earth Oxides by Region .....</b>	<b>156</b>
Neodymium Oxide .....	157
Praseodymium Oxide .....	158
Dysprosium Oxide .....	159
Terbium Oxide .....	160
<b>Forecasted Global Secondary Production of Magnet Rare Earth Oxides .....</b>	<b>161</b>
<b>Forecasted Global Secondary Production of Magnet Rare Earth Oxides by Region .....</b>	<b>162</b>
<b>Forecasted Global Production of NdFeB Alloys and Powders.....</b>	<b>163</b>
<b>Forecasted Global Production of NdFeB Alloys and Powders by Region .....</b>	<b>164</b>
<b>Forecasted Global Production of NdFeB Magnets by Region .....</b>	<b>165</b>
<b>Chapter 9: Forecasted Global Production – Demand Balance.....</b>	<b>166</b>
<b>Forecasted Global Production – Demand Balance for Magnet Rare Earth Oxides .....</b>	<b>166</b>
Neodymium and Praseodymium Oxides.....	167
Dysprosium Oxide .....	168
Terbium Oxide .....	169
<b>Forecasted Global Production – Demand Balance for Magnet Alloys and Powders .....</b>	<b>170</b>
<b>Chapter 10: Forecasted Prices.....</b>	<b>171</b>
<b>Forecasted Magnet Rare Earth Oxide Prices .....</b>	<b>171</b>
Neodymium, Praseodymium and Didymium Oxide.....	172
Dysprosium Oxide .....	174
Terbium Oxide .....	176
<b>Implications for Metals, Alloys, Powders and Magnet Prices .....</b>	<b>178</b>
<b>Implications for End-Use Markets.....</b>	<b>179</b>
<b>Chapter 11: Magnet Market Outlook .....</b>	<b>180</b>
The Global Market for Magnet Rare Earth Oxides to Increase Five-Fold by 2030.....	180
China Will Continue to Dominate Every Step of the Value Chain .....	180
NdPr Oxide Price to Reach \$100 per Kilogram by 2030 .....	181
Annual NdFeB Shortages of 48,000 Tonnes Expected by 2030 .....	181
Annual NdPr Oxide Shortages of 16,000 Tonnes Expected by 2030.....	182
Annual Dy Oxide Shortages of 1,850 Tonnes Expected by 2030 .....	182
Cerium, Lanthanum and Terbium Will Help Fill the Gap .....	182
Recycling Can Also Help Fill the Gap .....	183
EVs Will Consume 1 Out of Every 4 Tonnes of NdFeB Produced in 2030 .....	183

Post-2030: Unfathomable Demand Growth Awaits .....	183
<b>Appendices .....</b>	<b>184</b>
A1: Dysprosium and Terbium Thrifting .....	184
A2: Breakdown of Rare Earth Mines by Group in China .....	185
A3: Potential Future Miners of Magnet Rare Earths Outside China.....	186
A4: Potential Future Processors, Refiners and Recyclers of Magnet Rare Earths Outside China.....	187
A5: Production Capacity of Leading NdFeB Alloy and Powder Manufacturers .....	188
A6: Leading EV Traction Motor Manufacturers Globally .....	189
A7: Leading EV Manufacturers Globally.....	191
A8: Leading Wind Power Generator Manufacturers Globally .....	194
A9: Forecasted China Domestic Prices of All Rare Earth Oxides to 2030 .....	195
