

EV Battery Capacity and Battery Metals Tracker

ONLINE TRACKER AND VISUAL ANALYTICS PLATFORM

Updated Monthly

Historic Monthly Data Back to 2004

Interactive Maps, Charts and Analytic Tools

Suite of 5 Interactive Dashboards:

1. EV Profiler

- Over 500 models covered (BEV, PHEV, HEV)
- Battery attributes and metals usage per model
- Monthly registrations and market share by country for each model

2. EV Registrations by Country and Region

- Tracking monthly BEV, PHEV and HEV registrations in over 80 nations
- Every market at your finger tips

3. EV Registrations by Make and Model

- Tracking monthly registrations and market share for over 500 models and 50 makes
- Drill-down, filter, visualize trends in seconds

4. EV Battery Capacity Deployed

- Monthly battery capacity (kWh) deployed by region, country, make, model, cell supplier, EV type, cathode, anode, and more
- Detailed breakdown of cathode types in use (i.e. NCM 111, 523, 622, 811, etc.)

5. EV Battery Metals Deployed

- Monthly battery metals/materials deployed by region, country, make, model, cell supplier, EV type, cathode, anode, and more
- Tracking metals usage month after month

This online tracker and visual analytics platform tracks monthly EV registrations globally by make, model, nation, cell supplier and cell chemistry, and translates monthly registrations into deployment of EV battery capacity and consumption of battery metals and materials, such as lithium, cobalt, nickel, aluminum, manganese, copper, graphite, REE and more.

The data we track is presented through a suite of interactive dashboards that enable the user to quickly visualize key trends and drill-down on individual makes, models, regions, countries, cell suppliers, cell chemistries, metal types, and much more.

Spend less time collecting, cleansing and fact-checking data, and more time making informed decisions.

Essential tool for:

- Automakers
- Cell Suppliers
- Battery Materials Manufacturers
- Cathode and Anode Producers
- Battery Metals Mining Companies
- Informed Investors and Financiers
- Government Agencies
- Other Industry Stakeholders
